

MASTERING ISO 14067:2018 QUANTIFYING AND MANAGING THE CARBON FOOTPRINT OF PRODUCTS

Description

DESCRIPTION

This seminar provides a comprehensive understanding of ISO 14067:2018, equipping participants with the essential knowledge and tools to quantify, manage, and reduce the carbon footprint of products. By aligning with international standards and adopting best practices, participants will gain the expertise needed to contribute effectively to their organizationsâ sustainability and climate action goals.

INTENDED AUDIENCE

his seminar is designed for professionals involved in sustainability and carbon footprint assessments, including Environmental Compliance Officers, Sustainability Professionals, Policy Makers and Regulators, Industry Leaders, Consultants, and Advisors who would like to Understand the principles of ISO 14067 and gain insights into life cycle assessment (LCA) and carbon footprint quantification.

The seminar will provide a structured approach to mastering ISO 14067, covering:

- How to conduct a carbon footprint study in compliance with ISO 14067
- Key methodologies for carbon footprint quantification
- How to design a comprehensive interpretation report

Additionally, the seminar will introduce new terminology, explain all key chapters of the Standard, and offer practical guidance on:

- Defining an appropriate goal and scope for a product carbon footprint assessment
- Reviewing data sources and assembling a representative data inventory
- Developing an Excel-based model for carbon footprint quantification
- Reporting the carbon footprint of a product in line with ISO 14067

All participants will receive a Certificate of Attendance issued by TÃ V AUSTRIA.

DURATION

The seminar will be conducted over a total of **16 hours**.

10+11/04/2025
